

The **Schrader Marina Schlei GmbH** in Borgwedel is located on the south bank of the Baltic Sea fjord "Schlei", between Kiel and Flensburg.

Equipped with berths, a boat maintenance service, a heated warehouse for wintering as well as a powerful Travellift, comprehensive services can be offered for all boats and yachts. Added to this is a new **Xbee Diesel** gas station.

Since April 2017, only **Xbee Diesel** has been served at the **Schrader Marina Schlei GmbH's** boat station. The natural enzyme biotechnology **Xbee** is an environment-friendly fuel additive that cleans fuels and engines, eliminates and prevents bacteria contamination, reduces fuel consumption and greenhouse gas emissions.

**Xbee Diesel** helps boat owners to safely and efficiently navigate the beautiful waters and keep their fuel refined during wintering. Leading marine engine manufacturers such as **MaK** / **Caterpillar** and the **Wärtsilä Group** recommend the **Xbee** enzyme technology due to the high cleaning performance and the natural composition.

In addition to the **Xbee Diesel** filling station, **Xbee** is available in 250-ml dosing bottles \_ treating up to 1,000 liters \_ in the Marina accessory shop. When refueling standard diesel at other gas stations, boats and yachts owner will be able to treat their fuel tanks with **Xbee**.

It is also possible to use **Xbee** in your own car, RV or heating oil tank, since the 100% organic enzyme technology is compatible with all fuels.

Engines and fuels guarantees:

▫ **Xbee** is in compliance with the **CEC** tests, recognized by the **ACEA** that represents 13 of the main European vehicles manufacturers.  
<http://www.acea.be>

▫ On the other hand, **Xbee** respects the European regulation EN 590 Diesel norm and CSR 500 IFO 380 norm.
