

In December 2005, the petrol station **Garage Amand** in the French town of Thury-Harcourt (Normandy) used **Xbee** to replace the fuels and branded fuels at the former **Shell** service station.

All Unleaded 95 and Unleaded 98 fuels are now **Xbee** fuels. After 1 year, **Xbee** diesel represents more than 60% of the diesel sold, and this proportion is continuing to rise.

"Our clients are happy to pay appreciably more for their fuel in return for reduced consumption, better engine performance, and increased consideration for the environment as a result of the significant reduction in harmful emissions."

**Fabrice Amand**

Engines and fuels guarantees:

▫ **Xbee** is in compliance with the **CEC** tests, recognized by the **ACEA** that represents 13 of the main European vehicles manufacturers.  
<http://www.acea.be>

▫ On the other hand, **Xbee** respects the European regulation EN 590 Diesel norm and CSR 500 IFO 380 norm.
