

Hecker Mineralöle distributes heating oil, diesel and lub oils. The company also transports fuel for the local petroleum industry. For that reason, the company runs three tanker trucks.

Our evaluation:

We tested a batch of 20,000 liters Xbee diesel in our three trucks and have observed the following results :

- engines run quieter and smoother;
- fuel consumption is reduced by one to two liters per 100 kilometers;
- increased power, consequently improved shifting of the automatic transmission.

Our conclusion:

- financial savings, due to the reduction of the fuel consumption;
- longer intervals between engine services, due to cleaner filters;
- positive feedback from our drivers.

Engines and fuels guarantees:

▫ **Xbee** is in compliance with the **CEC** tests, recognized by the **ACEA** that represents 13 of the main European vehicles manufacturers.
<http://www.acea.be>

▫ On the other hand, **Xbee** respects the European regulation EN 590 Diesel norm and CSR 500 IFO 380 norm.
